Munich, 4 July 2022

**Dr.-Ing. Karsten Gruber is the new Director
of OBERMEYER Infrastruktur GmbH & Co. KG**

Copyright. OBERMEYER

On July 1, 2022, 57-year-old civil engineer Dr.-Ing. Karsten Gruber was appointed Managing Director of OBERMEYER Infrastruktur GmbH & Co. KG. He is leaving Sweco GmbH, where he was a member of the management board for many years.

"I am very pleased that we have been able to acquire an experienced managing director with Dr.-Ing. Karsten Gruber. Together with the management team, he will consolidate the successful business of OBERMEYER Infrastruktur and further develop the company in a consistent and future-oriented manner," says Jens Ulrich, Managing Director of OBERMEYER Holding GmbH. Ulrich himself has been responsible for this position in addition to his function in the holding since the end of 2020, after the former OBERMEYER Planen + Beraten GmbH became OBERMEYER Infrastruktur GmbH & Co. KG and OBERMEYER Gebäudeplanung GmbH & Co. KG.

Dr.-Ing. Karsten Gruber has extensive experience in the planning and execution of construction and infrastructure projects. He worked for international construction companies, primarily handling major projects in the Netherlands, England and Germany. Since 2005, he has been responsible for the management of various companies. In 2012, Gruber joined Sweco GmbH, where he was appointed to the management board for infrastructure and held this position until mid-November 2021. Due to structural decisions of the Swedish parent company, the Germany management was reduced to one person at that time. Until his change to OBERMEYER Infrastruktur GmbH & Co. KG, he was still active for the company in an advisory capacity.

"I thank you very much for the trust you have in me as a person. For me, my new task as Managing Director of OBERMEYER Infrastruktur means a logical continuation of my previous professional biography," explains Dr.-Ing. Karsten Gruber. "Therefore, I am looking forward to sharing my expertise with the highly motivated teams and to continue the success story of OBERMEYER together."

About OBERMEYER:

The OBERMEYER Group is one of the largest independent German planning companies and has been an expert in overall planning and qualified specialist planning for more than 60 years.

With over 1,400 employees worldwide, OBERMEYER provides planning services in the fields of buildings, infrastructure and building services engineering. Together with the scientific research institutes, almost all specialist fields of engineering and construction planning are covered.

Inspired by the innovation spirit of its founder Leonhard Obermeyer, the company creates intelligent, forward-looking solutions using the latest digital tools and agile methods.
