## Self-declaration on the Supply Chain Due Diligence Act (LkSG)

OBERMEYER Infrastruktur is a leading, independent German planning company and an expert in overall planning and qualified specialist planning since over 60 years. With more than 600 employees, OBERMEYER Infrastruktur provides planning services in infrastructure and, together with its scientific research institutes, covers a wide range of specialist areas in engineering and construction planning.

Our company has less than 1,000 employees, which means that we do not fall within the scope of the German Supply Chain Due Diligence Act (LkSG).

However, we regularly carry out a risk analysis of our business activities with regards to human rights and environmental risks within the meaning of the LkSG. The risk analysis also includes the subcontractors we commission.

The regular reviews have so far shown that our activities do not pose any risks to human rights or the environment.

Dr.-Ing. Karsten P. Gruber
